

AG DIESEL FUEL TRAILER

NOT FOR GASOLINE

Standard Base Trailer

Trailer with Front Toolbox

Economy Series

NEW
From Sprayer Specialties
Diesel Fuel Skid
More information on Page 231

Standard Base Trailer

Safe to pull in the field or on the highway.

- Fuel tank baffles help prevent the fluid movement in the tank from affecting the truck towing it, by minimizing sloshing and fluid push. The ADT500 and ADT750 each have two baffles, while the ADT990 supports three baffles.

Quality and Convenience to keep you running

- Reinforced fenders and a hand rail allow for a secure position to fuel equipment high off of the ground
- With a 6" sump, all fuel is drawn out below the main level in the tank, helping you use all of the fuel in the tank

Standard Features

- 12V Industrial Grade Pump, Rated at 25gpm, 25 Micron Filter
- Double Seam Welded 10 ga. Steel
- Up to 5 Internal Fuel Surge Baffles
- DOT Approved Safety Tape

- 12' Heavy Gauge Power Cables
- Super Strong 6" C-Channel Chassis
- LED Side and Rear Lights
- 4 HAZMAT Safety Placards

- 20' of 1" Hose, Auto Trip Nozzle
- Low Profile, Low Center of Gravity
- Wiring Wrapped in COnduit

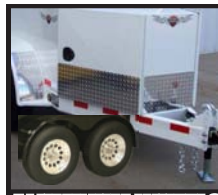

- Electric brakes on both axles for optimum stopping power
- 3,500 lb 10 ply highway tire, not implement tires.
- Torsion axles for improved ride and longevity
- Two fuel level sight glasses to quickly monitor fuel resources
- Fuel filter with a filter service gauge lets you know when to replace the fuel filter
- Comes standard with a GPI 25gpm commercial grade fuel pump

Standard Features on Sprayer Specialties Stocked Trailers

The Front Toolbox provides a secure location for tools and equipment. Pumping system is relocated inside on trailers w/ toolbox.

FRONT TOOLBOX

Aluminum Wheels and a Diamond Plate Rock Guard. The Rock guard is installed on trailer front and fenders.

ALUMINUM WHEELS & ROCK GUARD

Spring loaded 35' Auto Retracting Hose Reel, 1" diameter.

35' HOSE REEL - QUICK FILL

Economy Series

The 400 gallon economy fuel trailer comes with a streamlined set of standard features and has been specifically designed for agricultural use only. The optional upgrade feature for the EV400 is limited to a 12 volt 25gpm pump. The pump upgrade includes a 25 micron fuel filter, auto trip nozzle, 20' of 1" fuel hose and 12' power cables. The trailer is finished in a medium gray polyurethane paint.

- Model EV400
- 18 micron fuel filter
- 15" tires with steel wheels
- Incandescent Lights
- L - 10'8" W - 5'7" H - 4'3"
- Two 2,200 lb. torsion axles
- Two fuel level sight glasses
- Double seam welded 11 ga. tank
- Empty weight 1,400 lbs.
- EZ lube hubs, no brakes
- 5,000 lb. Heavy Duty Jack
- Pressure activated tank vent
- 15 gpm 12volt electric pump
- One fuel surge baffle
- DOT Safety Placards, Safety Chains
- Locking vented fill cap
