

# Austin Pitstick Memorial Scholarship

Austin Pitstick was a regular visitor to our booth at The National Farm Machinery Show in Louisville, Kentucky.

We could count on seeing Austin and his family showing up at least once at our booth. They always came by with a smile.

He had a love for anything that had to do with farming and the outdoors, especially tractors.

It is our belief that Austin is what farming in America is all about.

For that reason we are offering a \$2,000.00 scholarship in his honor to the high school graduate of the year 2011 that currently is from a farming family and writes what we consider to be the best essay containing a maximum of 1500 words on what they consider to be "true value of farming in America".

How to enter:

One(1) copy of the essay must be mailed by a teacher (legal guardian if home-schooled) on behalf of the student, along with a cover letter containing the following:

- Date
- Student's full name, address and home telephone number
